

Workshop # 1:

Developing a Youth Peer Community Advocacy Group in Your Community

Directions: Working in groups, discuss the potential benefits for having a youth peer community advocacy program in your community (e.g., high rates of gang violence, teen pregnancy, etc.). Then work through these specific questions:

- What do you think would be some of your biggest barriers?

- Who would be key partners?

- Where would you ideally hold the programs?

- How would you transport students?

- How do you recruit students? Who would you recruit?

- Who would teach the program?
