

Behavioral Health Home (BHH) Services

Overview

Behavioral health home (BHH) services refers to the delivery of a set of core services focused on integration of primary care, mental health services, and social services and supports for adults and children with a mental illness diagnosis. The services include:

- Comprehensive care management
- Care coordination
- Health and wellness promotion
- Comprehensive transitional care
- Individual and family support
- Referral to community and social support

BHH services is not a place to live. BHH services providers utilize a multidisciplinary team to deliver person-centered support to help people access and coordinate services and supports while helping them reach their wellness goals.

BHH services goals are that each individual:

- Has access to and utilizes routine and preventative health care services
- Has consistent care for mental illness and other health conditions
- Gains knowledge of health conditions and associated effective treatments
- Increases self-efficacy and improves health management practices
- Has access to and utilizes wellness and recovery resources
- Has access to and uses social and community supports to assist with meeting wellness goals

Team-Based Approach

Providers administer BHH services through a team-based approach. Each team shares in their responsibility to support the people they serve so that every person has access to the expertise and services provided by each of the unique BHH services team members.

For more information:

Visit the BHH services website at www.mn.gov/dhs/mhcp/bhh-services, contact a local certified BHH provider directly or send an email to Behavioral.Health.Home.Services@state.mn.us

BHH services are offered in a variety of settings, including but not limited to:

- Community mental health centers
- Integrated primary care clinics

Eligible individuals include:

- Medical Assistance recipients
- Adults with diagnosis of serious mental illness (SMI)
- Children with diagnosis of emotional disturbance (ED)

A current diagnostic assessment is required to determine SMI or ED diagnosis.

Duplicative Services

Medical Assistance payment for duplicative services is prohibited. The following services are considered to be duplicative of BHH services:

- Mental health targeted case management (MH-TCM)
- Assertive Community Treatment (ACT) or Youth Assertive Community Treatment (Youth ACT)
- Relocation service coordination targeted case management (RSC-TCM)
